I wanna talk to you about the time of the year we call it  
the fall  
It's a time when you can feel a change coming  
Like sometimes late in the evening  
You can feel a little brisk air nipping at the back of your  
neck  
Kind of make you wanna scrunch up your shoulders  
And put a blue jeans jumper up around you

You can feel it in your bones, you know a change is  
gonna come  
A litte change never done nobody no harm

It's the time always makes me think about  
Old hobo's sitting out around the camp fires at night  
Fall and some more coffee in an old tin can trying to  
keep warm  
Listen to them  
But it is also a time when I get a restless feeling  
Makes me wanna just get on a freight train and ride  
somewhere  
Like there is something somewhere  
Saying come see about me and check me out

You can feel it in your bones oh yes you can  
You know a change is gonna come  
A little change never done nobody no harm

It's a time if you go out in the woods  
You can see the turning of the leaves  
And a kind of smells good to you, yeah, but it don't last  
long  
For you know it winter's come clamping down on you  
And you are hovering in your coat, trying to keep  
yourself warm  
But it's a good time, it's a good thing, it's a change

You can feel it in your bones, you know a change is  
gonna come  
A little change never done nobody no harm.
