"Bullshit Politicians"

Visit "[Bullshit Politicians](#)" on MotoLyrics.com

The government thinks that its right, to run our country
based on lies, money not spent on health-care, instead
on destroying lives... It once was said we had a choice,
But now been undone, But they can never take our
voice, So stand up and fight.

Do we have a choice, With our bullshit politicians, We
march on to raise our voices, But do they listen?

A supposed democracy, do we even have a hope?
Children of their hypocrisy, on their twisted lies we
choke. These lies wont hold no truth to me, blinded by
the pistol smoke, land of hope and glory? hell no!

Do we have a choice, With our bullshit politicians, We
march on to raise our voices, But do they listen?

We live in a world of corruption and lies, of which we
are forced to accept, but i refuse to accept this bullshit,
Is it too much to ask for truth.

Do we have a choice, With our bullshit politicians, We
march on to raise our voices, But do they listen?
