The government like to say, we're multicultural, But still
they hold a prejudice, that segregates our world, Laws
for equal rights, what difference have they made? Our
coloured population, still unemployed again.

A fascist group of power, A white man's club elite, Not
a single ounce of colour to renew this extinct sheet.
This disgrace has a name and it aint the KKK, But
instead the US senate, they dont see the light of day.

Egocentric terroists, another toxic plague, Right wing
fundamentalists, destroy what we've made, Dont wave
their flag or pledge an alleigance, Take a stand and
hold your ground, it's time to make a change.

A fascist group of power, A white man's club elite, Not
a single ounce of colour to renew this extinct sheet.
This disgrace has a name and it aint the KKK, But
instead the US senate, they dont see the light of day.

It's all under the skin, It's all under the skin!

A fascist group of power, A white man's club elite, Not
a single ounce of colour to renew this extinct sheet.
This disgrace has a name and it aint the KKK, But
instead the US senate, they dont see the light of day.
