Seems like you did not know
Faith couldnt blind you here
Darkness was on the way
In a mad sound that I create

Feels like this could not be
Love could have broke your fall
Darkness belonged to me
In a mad world that I create

Hallelujah

Cant bleed for what you dont
Cant face to find you here
Darkness was on the way
In a mad sound that I create

Feels like this could not be
Cancelled your heart and soul
Darkness was on the way
In a mad world that I create

Hallelujah

Youre so far away
When you stand with me
Just let me go away
What you see in me?
Let me go away
Or just stay with me

Seems like you did not know
Faith couldnt blind you here
Darkness belongs to me
In this mad sound that I create

Hallelujah
