Will you sing me a song
Let the world take in everything
They can from you my love
"She said"
Can you play all night long?
Show the world everything you've learned
From peace and love
The war is on, its time to play

Dont you give them simple melodies
With the hope to change the world
Did the spotlight take your heart away?
Could you tell her im your girl?
If you need to be the minister
Be the bible and the faith
Challenge all the world to take you on
Make them feel you when you play

She had the glow that lights the way
Bright as the sun but higher
She had the flow, the style, the grace
High up above, she flys, she sings

Dont you give them simple melodies
With the hope to change the world
Did the spotlight take your heart away?
Could you tell her im your girl?
If you need to be the minister
Be the bible and the faith
Challenge all the world to take you on
Make them feel you when you play

Can you sing me a song?
Make me feel what you play
Do your words make you strong
Can they make me feel the same
Are the notes from your heart
Are there tears on the page
Does it tear you apart
When you sing your words to me
Can you give love?
