Matthew has got
A big idea
And he's gonna take it out on me

Matthew has got
A big idea
And he's gonna take it out on me

Matthew is small
But his heart is bigger
Than the cover of a magazine

Oh Matthew has got
A big idea
And he's gonna take it out on me

If his idea is good
He's been listening to the radio

If his idea is good
He's been listening to me

But I'll walk past your goodbyes
On the stereo of lies

Closer my love
It's all or nothing
But your gonna let me know its true
Come closer my love
It's all or nothing
But it's never gonna be with you

Matthew is small
But his heart is bigger
Than the cover of a magazine

Oh Matthew has got.
A big idea
And he's gonna take it out on me

If his idea is good

He's been listening to the radio

If his idea is good
He's been listening to me

I won't ask for your goodbyes
Cos you won't be satisfied
And don't hold me for a crime
On the stereo of lies

Matthew's got a wife now
Matthew's got a wife now
Matthew's got a wife now
Matthew's got a wife

His idea is good
He's been listening to the radio

His idea is good
He's been listening to me

If his idea is good
He's been listening to me

On the stereo of lies
On the stereo of lies
It's the stereo of lies
