Feel like a second hand today
Better or worse, I couldn't say, anyway
I can't look back, but I still need you there somewhere

Yeah, I look like me, but I still feel like you (x2)

More than a second hand away
Time isn't what I need today, anyway
I want you back, but you don't need to hear me say

Yeah, I look like me, but I still feel like you (x3)

I never meant to cause any problem
I never meant you any pain

[Solo]

I want you back but you don't need to hear me say

Yeah, I look like me, but I still feel like you (x3)
