

Kills, The "No Wow"

Visit "[No Wow](#)" on MotoLyrics.com

you're gonna have to step over my dead body,
before you walk out that door
you charmed me with your magic, landed looking
tragic
'Forever' is the feather you ain't got no more
and all the people you see coming by to save you
you're make-believing-on in your mind
your eyes are holy rollin', looking, beating, knocking,
the ceiling gets closer to you all the time
this ain't no wow now, they all been put down, who ain't
dead yet,
fled to die closer to the shore,
this ain't no wow no more

Drip dripdripdripdrip kinda like,
drip dripdripdripdrip kinda like,
drip dripdripdripdrip kinda like,
like the loose end of the night (x4)

there ain't no wow now, they all been put down (x3)
there ain't no wow now
