### "Darling I"

Visit "[Darling I](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I guess I'll miss you, one more night  
I keep tryin, to get it right  
I got no story, ain't been told  
These tired excuses, girl they're gettin old

Cause Darling I don't wanna let you down  
with all these dead end dreams and all this running  
'round  
But Darling I could never let you get away  
I'll do my best to make you stay, stay yeah

This road keeps callin, out my name  
Like a moth I cling to, its eternal flame

Cause Darling I don't wanna let you down  
hiding from myself, running town to town  
But Darling I, could never let you get away  
I pray you'll love me either way

Time on my hands, love on my mind  
and I'm always on the run  
Stars in my dreams, songs in my heart  
and in my eyes you're the only one  
If I've taken you for granted,  
go on take me for the fool that I've become

Cause Darling I don't wanna let you down  
hiding from myself, running town to town  
But Darling I, could never let you get away  
I'll pray you love me either way

Cause Darling I could never let you down  
with all these dead end dreams and all this running  
'round  
But Darling I could never let you get away  
I'll do my best to make you stay...
