On the reckless and carefree wings of love
Take my hand, let's fly away
Make the best with what we've got
And improve along the way

I'm a sucker for your beauty, darlin'
The way you please and hurt me
Scream for you to pin me down
And happy to beg for mercy

Be my baby, be my dream
Be my, my happily ever after

The touch of your hand inspires
The taste of you, my favorite song
A lifetime in your gallery
Tell me, would that be wrong?
Would that be too long?

Be my baby, be my dream
Be my, my happily ever after
Be my lady, be my queen
Be my, my happily ever after

And after, on and on and on
With you all the way, with you all the way
On and on and on

A lifetime in your arms around me
Two were meant to become one
Forever you're my favorite
Forever I'm yours, forever I'm yours

Be my baby, be my dream
Be my, my happily ever after
Be my lady, be my queen
From here and there and in between

Be my baby, be my dream
Be my, my happily ever after
