I got a dream 'bout a song that I wanna sing.
This song is coming to you
I got a plan that I wanna gather all our friends
And all the neighbors too.

It's something in my love system
That makes me wanna sing
I just can't help it (Help)

Been writing like a mad,
But my paper's as good blank,
And I have to get this message through

And if it's all, all, all that I can sing
I'll sing that to you
And if it's all, all, all that I can sing
I'll sing that for you

I got a plan 'bout a name that I wanna give.
This name is 'bout me and you
I got a plan that would multiply the sweetest eyes
And make them shine back to you

And I, I got a plan
That the dream is not just a dream
'Cause I believe in you, in you, in you, in you

Something in my love system
Shines like a diamond ring
I just can't help it, help
It feels like "going rich is that one big man" can claim
So I have to sing it out
To you

And if it's all, all, all that I can sing
I'll sing that to you
And if it's all, all, all that I can sing
I'll sing that for you

I got a mind full of scenes that I wanna stream
And all the photos is you

I got a head full of shots I wanna show the world
But it ain't coming through

It's something unreal going
That makes me wanna sing
I just can't help it
I got to show it
Something in the way you move
And just the way you look
I have to sing it
Out, to you

And if it's all, all, all that I can sing
I'll sing that to you
And if it's all, all, all that I can sing
I'll sing that for you

Yeah, and if it's all, all, all that I can sing
I'll sing that for you
And if it's all, all, all that I can sing
I'll sing that to you
