"Beautiful Dream"

Visit "[Beautiful Dream](#)" on MotoLyrics.com

She was kissing my back and my neck and my face
I was looking around for the perfect place
To lay down beside her and say maybe
This is the time to make babies
Prettiest girl I have ever seen
I look at you and I think it's a dream
I love your voice and your sexy body
Let's go deep inside into the love stream
Face like a picture in a gallery
Her legs were long and slim as she walked up to me
Wide at the front and wide at the back
Her hips were curved only her stomach was flat
An IQ of 690, everything one woman can be
"Push push 'cos I like it like that"
So I push push and then she pushes back. said
"Don't stop it's never felt better
I think I'd like to carry on forever
Beautiful dream more than a dream
In effect in a love stream love power
It was a beautiful dream more than a dream
In effect in a love stream love power"
Love and hate will never be friends
This is a dream and I don't want it to end
I'll be your friend I'll be more than your friend
This is a love I must defend
Slow slow and it grows it grows
Fast fast and it lasts it lasts
On top top till you jump right off
Underneath don't stop don't stop
And when it's time to change position
We gotta make a big decision
Already did this once before
Let's get off the bed and onto the floor
"Push push because I like it like that"
So I push push and then she pushes back. said
"Don't stop it's never felt better
I think I'd like to carry on forever
Beautiful dream more than a dream
In effect in a love stream love power
It was a beautiful dream more than a dream
In effect in a love stream love power"
Hey emotion love devotion

Sex is emotion in motion
Hey emotion, love, devotion
Sex is emotion in motion
I think I'd like to carry it on forever
Lets fire it up!
This is a dream whose time has come
And you and me are the only ones
To take it on to the special place
Let me touch your mouth and let me kiss your face
One and one makes two
Sleeping together like dreamers do
We look to love to make something new
Darling darling it all you
It's sex that sets your mind and body free
It's sex that keeps away from the HIV
Sex opens the lock if you got the key
Sex made you and sex made me
So lets turn it up lets turn it down
It's better the second time around
"Push push because I like it like that"
So I push push and then she pushes back. said
"Don't you stop it's never felt better
I think I'd like to carry on forever
Beautiful dream more than a dream
In effect in a love stream love power
It was a beautiful dream more than a dream
In effect in a love stream love power"~f~½
