Oh, This is the start of something good
Don't you agree?
I haven't felt like this
In so many moons
You know what I mean
And we can build through this distraction
As we are standing on our feet

So, since you wanna be with me
You'll have to follow through
With every word you say
And I, all I really want is you
For you to stick around
And see you every day
But you have to follow through

These reeling emotions
They just keep me alive
They keep me in tune
Oh, look what I'm holding
Here in my fire
This is for you
Am I too obvious
To preach it
You're so hypnotic
On my heart

So, since you wanna be with me
You'll have to follow through
With every word you say
And I, all I really want is you
For you to stick around
I'll see you every day
But you have to follow through

You have to follow through

The words you say to me
Are unlike anything
That's ever been said
Oh, and what you do to me
Is unlike anything that's ever been

Am I to obvious
To preach it
You're so hypnotic
On my heart

So, since you wanna be with me
You'll have to follow through
With every word you say
And I, all I really want is you
Baby, For you to stick around
I'll see you every day
But you have to follow through

You have to follow through
You're gonna have to follow,

Oh, This is the start of something good
Don't you agree?
