I'm here checkin' it out
Guess I might as well (I might as well)
Gonna make the most of this
Before I hear that bell
Always been the one in the spotlight
Rockin out and having a good time
Now my worlds turned upside down

Here I go Here I go
Gonna work it out somehow
Walking tall but I hope you know
Got both feet on the ground
It's okay, I know that I will find a way
To make this world my own
So here I go (Here I go, Here I go)
Here I go (Here I go, Here I go)
See my face in a magazine
With the stories that they tell
My picture on your wall
My ringtone on your cell (ringtone on your cell)
Got used to living the good-life,
First class with everything just right
Now my worlds turned upside down

Here I go Here I go
Gonna work it out somehow
Walking tall but I hope you know
Got both feet on the ground
It's okay, I know that I will find a way
To make this world my own
So here I go
