Just a glimpse of the future we're buying
Behind them hands are you laughing or crying?
You fall apart when we ain't complying
And we ain't gonna take this no more
In the fog vampire blood suckers
Fight them off by flinging nunchuckas
You can't stop us, up for the ruckus
And we ain't gonna take this no more

Cut the bankers, cut the MP's
Cut the rich and the riot police
Cut the state and cut the war
But they cut the poor

We are fighting back and we are fucking angry

Hang the judge and kill the jury
Come alive and use your fury
The future will write the history
And we ain't gonna take this no more
Vote of faith and we get what we ask for
This is class war, this is class war
It's what we wear our hoods and our masks for
And we ain't gonna take this no more

Cut the bankers, cut the MP's
Cut the rich and the riot police
Cut the state and cut the war
But they cut the poor

We are fighting back and we are fucking angry
If you cover your ears when we vote or come in peace
Then you give us no choice but to tear down these
streets
Students, workers and unemployed unite and rise out
of the slum
France, Spain, Greece we're joining you finally our time
has come

We are fighting back and we are fucking angry
