Tony Orlando And Dawn
"Sing"

Sing a song of song to me
Sing it like an older song
Sing about it all day long
You can't go wrong

If you just sing all those blues away
Woah, sing it loud and sing it strong
A happy-go-lucky song
You can't go wrong

And when you're feeling down, a song
Can make you happy again
It's just like a friend
You know you won't be seperate long

If you just sing, all your dreams come true
Woah, sing out loud now, don't be shy
'Cause if you reach out for the sky
Woah, you're gonna get by

Play a little melody, go ahead...

[BRIDGE]

Let rainbows chase your clouds away
Don't turn your back on the sun
Get and out and have fun
And let a smile get you on your way

Come on and sing, all your dreams come true
Woah, sing out loud now, don't be shy
'Cause if you reach out for the sky
You're gonna get by

Alright now, everybody, you know it
Let's try it together, come on

Sing, all your dreams come true
Woah, sing out loud now, don't be shy
'Cause if you reach out for the sky
Woah, you're gonna get by

If you just sing a song of songs to me
Sing it like an older song
Sing about it all day long
You can't go wrong

Come on and sing, all those blues away
Sing it loud and sing it strong

[FADE]
