When you wish upon your star  
Don't let yourself fall, fall into too hard  
I fell into you and I'm on my back  
An insect decaying in your little trap  
I squirm into you, now I'm in your gut  
I fell into you, now I'm in a rut  
I lift you up liekt he sweetest angel,  
I'll tear you down, like a whore,  
I will bury your God in my warm spit  
You'll be deformed in your porn  
Rock star yeah (You'r suck a dirty, dirty)  
Rock star yeah (dirty, dirty, dirty)  
You eat up my heart and all the little parts  
Your star is so sharp  
It leaves my jagged holes  
I make myself sick just to poison you  
If I can't have you then no one will  
I will bury your God in my warm spit  
You'll be deformed in your porn  
Rock star yeah (You'r suck a dirty, dirty)
