When you wish upon your star
Don't let yourself fall...fall in too hard.
I fell into you now I'm on my back,
An insect decaying in your little trap.
I squirm into you now I'm in your gut
I fell into you now I'm in a rut.
Lift you up like the sweetest angel,
I tear you down like a whore.
I will bury your god in my warm spit,
You'll be deformed in your porn.
ROCK STAR, YEAH (you're such a dirty, dirty)
ROCK STAR, YEAH (dirty, dirty, dirty)
You eat up my heart and all the little parts
Your star is so sharp it leaves me jagged holes
I make myself sick just to poison you
If i can't have you then no one will
(chorus)
You are the one I want and what I want is so unreal
I'm such a dirty rock star yeah
(I am the one you want and what you want is so unreal
