In space the stars are no nearer
They just glitter like a morgue
And I dreamed That I was a spaceman
Burned like a moth in a flame
And our world was so fucking gone
I'm not attached to your world
Nothing heals and nothing grows (2x)
Because it's a great big white world
And we are drained of our colors
We used to love ourselves we used to love one another
All my stiches itch
My prescription's low, I wish you were queen just for
today
In a world so white what else could I say?
And hell was so cold
All the vases are so broken
And the roses tear our hands all open
Mother marry miscarry
But we pray just like insects
The world is so ugly now
Because it's a great big white world

And we are drained of our colors

We used to love ourselves, we used to love one
another

All my stiches itch

My prescription's low, I wish you were queen just for
today

All my stiches itch

My prescription's low, I wish you were queen just for
today

In a world so white what else could I say? (2x
