Hey, do you see, how it works
When we try, together
I, can't believe I am right here
On your side, forever.

Hey, don't you see, we could be
Simply Lovers, like others
And hey, don't you see (Don't you see)

Lover, you should be my lover
You should be my cover
I don't need another
I don't need another...

Dreaming,
You should see me dreaming
You should get a feeling
I won't need another
I won't need another
Another... Another... Ooo Yeah...

Hey, we could just, rent a place
Live it up, like crazy
We could then, slow the pace
Live it nice, and lazy.

Hey, don't you see, we could be
Simply Lovers, like others
And hey, don't you see, you and me
On our way to forever, and ever

Lover, you should be my lover
You should be my cover
I don't need another
I don't need another...

Dreaming,
You should see me dreaming
You should get a feeling
I won't need another
I won't need another

Another... Another... Ooo Yeah...
You should be my cover
My cover... my cover...

Lover, you should be my lover
You should be my cover
I don't need another
I don't need another...

Dreaming,
You should see me dreaming
You should get a feeling
You won't need another
You won't need another

Kiss me, you can try and kiss me
It is not that risky
I don't need another
I don't need another

Dreaming,
You should see me dreaming
You should get a feeling
I won't need another
I won't need another
Another... Another... Ooo Yeah...
Yeaaah...
