Flashing by lights that we can't recognize  
getting home driving the freeway  
just had a gig that was fucking kicking it  
thinking back of the people that were digging it.

there was this girl, who I had beer with  
I lid a ziggy, she told me her name was smith  
she turned around, and she said will meet again  
But in the end I can only be her friend

Love just comes along  
you can't hear it or touch it  
but damn it is strong  
love just comes along  
yeah I like it, I love it,  
cause damn it is strong

The sun came out early in the morning  
I can't get up, but she's right here to say goodbye  
I'm guessing why, cause deep inside I'm way to shy  
She's really going mad, though I've never told a lie

she's on my nerves, I didn't got the chance to speak  
I'm thinking back of that girl, not getting what I need  
I'm kind of glad, cause now I know there's something's  
wrong.  
Because of her I know that we don't get along.

Love just comes along  
you can't hear it or touch it  
but damn it is strong  
love just comes along  
yeah I like it, I love it,  
cause damn it is strong

Love just comes along  
you can't hear it or touch it  
but damn it is strong  
love just comes along  
yeah I like it, I love it,  
cause damn it is strong
