Today, today I felt the magic
I was caught up in her eyes
Sunrise, Sunrise
No way, no way, don't need
Some self esteem
Cause she's my only guide
Tonight, tonight

Tell me why should I explain
Tell me why should I complain
Cause she makes me feel alive

I lay my head on her breast
I got her name on my chest
It's not that I am obsessed
Sing along -whooh whooh-

I lay my head on her breast
I got her name on my chest
It's not that I am obsessed
Sing along -whooh whooh-

Sunrise

So long so long to my frustrated life
she's about to set me free.
So free, so free

Tell me why should I erase
All the moments I've embraced
Cause she makes me feel alive

I lay my head on her breast
I got her name on my chest
It's not that I am obsessed
Sing along -whooh whooh-

I lay my head on her breast
I got her name on my chest
It's not that I am obsessed
Sing along -whooh whooh-

Sunrise
Sunrise

Now I taste
the benefit of life
I can't describe
The shivers down my spine
Believe me

Yeah Yeah Yeah
I lay my head on her breast
I got her name on my chest
It's not that I am obsessed
Sing along -whooh whooh-

I lay my head on her breast
I got her name on my chest
It's not that I am obsessed
Sing along -whooh whooh-
