From the first time I saw your lovely face  
I thought of being the man by your side.  
I wanted to be near you, feel your embrace,  
my love for you was nothing I had to hide.

Still in my heart in know that I belong to you,  
but how can I show you this is true?

Lorita, you're my girl, the only one in the world.  
Lorita, I love your way and miss you night and day!  
My feelings for you are strong, they just can't be  
wrong.  
Search my heart and you'll see how much you really  
mean to me!

Our first kiss was a sign for me,  
your lips so close to mine, your breath so near...  
I felt that our love was meant to be  
as you whispered in my ear you had no fear.

I gently kissed your hair, your shoulders and your neck.  
Yeah, love was in the air and no thought of turning  
back!

Lorita, you're my girl, the only one in the world.  
Lorita, I love your way, I miss you night and day!  
My feelings for you are strong, they just can't be  
wrong.  
Search my heart and you'll see how much you really  
mean to me!

Now we belong together and both share our love.  
Perhaps it lasts forever? You were sent from above!
