### "Hold Me"

Visit "[Hold Me](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I've got a feeling that you think of me at night  
You got that certain look deep within your eyes  
Is it for real or only just a game  
I've got to know cause i'm feeling the same  
They say that you're not lying  
Even though your not denying  
The things you said to me that night

Chorus:

Hold me, hold me in your arms tonight  
Hold me, tell me everythings alright

When I go home, before I fall asleep  
I think of you, tell me do you to  
If only I could tell you how I feel  
You fill my life with everything I need  
They say that you're not lying  
Even though your not denying  
The things you said to me that night

Chorus (4x)
