-P. Barrett-

One of the greatest four letter words  
My eyes have behold and my ears ever heard  
I say every other thing come second and third  
Love a the power, watch this

Chorus:

I say unnu love one another  
I telling unnu to love one another,  
I want you love one another  
Love one another, love one another  
Come again come love one another, I say love one  
another

Remember love one another, love one another,  
love one another  
Because love could make you happy  
Coulda never make you sad  
Trying to make it snappy  
And get that love that you must have  
Because L and a 0 and a V and a E  
That could make the world f-r-e-e  
L and a 0 and a V and a E  
That good for you and that good for  
Man and woman in a relationship  
You don't have love it cannot exist  
So I insist that you refuse to resist  
That wonderful thing that your heart must cherish  
Because from my experience the greatest ingredients  
Is love and obedience connected with reverence  
I always admire a loving desire  
That's what we require so kindle the fire

Chorus

All the people living inna this world today  
Shoulda never ever let love get away  
'Cause L-0-V-E can make you okay  
Every second every minute every hour of the day  
So if Europe and America Caribbean and Asia  
And Japan and China and Mama Africa

Could just come together this wood would be better  
'Cause love is the power spread it all over  
Chorus  
One of the greatest four letter word  
My eyes have ever behold and my ears ever heard  
'Cause like and lust and crush come third  
You take me up on that you have a nerve  
Because I'm optimistic and enthusiastic  
And very prophetic about this topic  
I have to spread it make it get endemic  
Till an epidemic in all family units

Chorus
