Ha  
Ha  
Keep doing that  
Let me show it to you  
Yeah  
Ha  
Ahh  
Wow

See what I got  
I gotta hell of a lot  
Tell me what you feel  
Is it real  
Is it real  
You know I got what it takes  
And I can take a lot  
Did you hear the last call baby  
Me got staying power, ha  
You and me we've got, huh, staying power, yeah  
You got it, staying power, ha

I wonder when we're gonna make it  
I wonder when we're gonna shake it  
Rock me baby rock me  
Come on you can shock me  
Let's catch on to the groove  
Make it move, make it move, yeah  
You know how to work that thing  
We'll work it, work it, work it  
I can play ball baby  
You and me got staying power, ha  
You and me we've got, ha, staying power

(Ad-libbed vocals)

Ha  
Oooh, watch'a  
Give it to me

I wonder when we're gonna make it  
I wonder when we're gonna shake it

I got fire down below  
I'm just a regular dynamo  
Want some smooth company  
Don't lose control just hang on out with me  
Got to get to know each other  
We got plenty of time  
Did you hear the last call baby  
Me got staying power  
Ha, you and me we've got, huh, staying power  
Hey, ha, wow  
Power, power, power, power  
Power, power, power, staying power  
Wow

I wonder when we're gonna stick it  
I wonder when we're gonna trick it  
Blow baby blow  
Let's get down and go, go  
Get yourself in the mood  
Got to give a little bit of attitude  
Baby don't you crash  
Let's just trash, trash, trash  
Did you hear the last call baby  
Me got staying power, yeah  
Ha, you and me we got staying power  
Staying power  
Yeah, yeah, gotcha

Freddie: This next song from album called "A Day at the Races",  
this is song of my favourites,  
it's called "Somebody To Love".
