This is how things are done
The way it's run
Up here it's such a sight
We put miles on our shoes
Drinks to abuse
And let our freak flags fly
And let our freak flags fly

Cause what we are
Two would-be lovers who never held one another

Sunlight darken my skin
Show where we've been
And set our days alight
We'll find ways to excuse
The things we choose
They'll treat us both like swine
They'll treat us both like swine

Cause what we are
Two would-be lovers who never held one another
Two would-be lovers who never held one another
Two would-be lovers who never held one another
