(intro)

AHH!!!

(chorus - Kapital G)

Another night, another fucking Bloody Night!

Another night, another fucking Bloody Night!

Another night, another fucking Bloody Night!

Another night, another fucking Bloody Night!

Another night, another fucking Bloody Night!

Another night, another fucking Bloody Night!

Another night, another fucking Bloody Night!

Another night, another fucking Bloody Night!

(verse 1- Kapital G)

It was a dark and silent night bloody Sunday night
devil's night

I pray to the lord my soul to keep inside my bloody
knife

I play the game of death so I can meet the devil
rolling 6 feet deep underground another level
find me a trick so I can cut a mother fucking throat
took her to the riverside to see if the bitch can float
but she won't float because it's wrapped around her
neck double

and now she's 6 feet deep the bitch is in trouble
and 4 days later now her body lies
another whore off the street but now she's labelled to
suicide

see I'm the mother fucking going crazy
Rosemary's baby chopping up bodies chopping daily
the mother fucker Curt D. is my next of kin
committing sin after sin after sin after fucking sin
so why did I sin again a bloody fatality
wicked rhyme wicked ways another thought of
mentality

(chorus)

(verse 2 - Kapital G)

666 I kill another bitch

yes I threw her in the ditch

slit her throat n sucked up on her bloody tits
why ask why she died the suffer of homicide
her soul survived but yet her body was buried alive
peeked in the obituary named Mrs. Jindo
feeling no pain in my brain but I'm slaying hoes
back from the hell raise a bloody around a male face
wicked mentality burying bloody bodies out of state
so I must sin again the sinner for suicide
some needles n pins I see sum blood dripping from my
eyes
the voodoo doll looks like me
so I take a knife to the neck slightly
and then I take another pin n stick it thru my chest
yes I take my last breath ahhhhhhh another death
another mother fucker dead ya see
another night ya see
another bloody fucking Sunday night!

(chorus)
