(chorus)

Do you see what I see
is what I don't see
do you see what I see grim reality
do you see what I see
is what I don't see
I see the devil looking at me not the G-O-D

(verse 1)

Shadows of death I see the visions of yo crucifix
locked in my conscious I be thinking about the triple 6
look into the sky what you see is what I don't see
I see the devil looking at me not the G-O-D
I look around i see the prostitute is sucking dick
an hour later and she's dead with the maggots and shit
I see dope house on a 64 pounding bass
I looked at a gangster and he punched me in my
fucking face
I look and see what you see who's looking back at me
I see the rats sport a jacket of the KGP
I look in a liquor store a bitch is getting held up
look into my daddy's room my sisters getting felt up
I look and see the blood pouring out the fucking ceiling
I look deep inside my soul and still I have no feeling
I look and see a sacrifice a baby baptized
and so I feel like I'm looking through the devil's eyes

(chorus)

Do you see what I see
is what I don't see
do you see what I see grim reality
do you see what I see
is what I don't see
I see the devil looking at me not the G-O-D

(verse 2)

Strangle to death I see the naked lady by the river
It'll make you shiver seeing the maggots feasting upon
her liver
I look and see the flesh regurgitating all my skin
better look again amen another sin

and through my eyes I see rats eating out the trash
and then I see they frisking 50 for a piece of ass
a sloppy fuck I see dead bodies up to the dump
I see the burning flesh and bones of a skinhead punk
but who's to blame call it insane the acid rain
look it leak through your evil brain
now I must rest to breath to try to fall asleep
but when I sleep better watch that ass the dark reaps
and so I creep what you see is things so bloody red
looking down the barrels of a gun I'm already dead
and turn the pages of yo holyness look in yo book
you'll see a life sacrificed you better take a look

(chorus)

(verse 3)

Straying to death I see the homeless trying to pick up
hoes
so they can taste some pussy reaper cords up off they
toes
Cause they be sick in the shit eating grits
I see a crack head bitch she's still sucking dick
I look and see a criminal bitch getting a second chance
and then I'll see some pig's dicks hanging out they
pants
they plead the 5th sucking dick in the back seat
but what I saw is what you see tripping off LSD
Hellusions got me thinking about my death
but my reflections when I'm facing blood dripping off
my neck
but within my brain I'm insane mama snort cocaine
not like you gain when there's demons calling out my
name
I look and see the angels falling from the sky above
they hit the mud G-O-D giving out no love
I look and see the evil buying a soul to sell
but when I die take a look cause I see you in hell

(chorus x4)
