(Verse 1:Onto)

I lay awake at night plagued by my memories
Locked behind a door of faith but there's no fucking
key
My conscious no longer fights, it gave up years before
Defeated in this life My conflict, my unholy war
No longer can I stop the rain, He is my new king
Ruler of all that is deceased but goes on living
And be triumphed by fail, What can I do to prevail
I use to walk by his side my inside now my vision is pale
Am I no longer a judge now just this program of choice
I can not argue his ways because I'm cursed with no
voice
I traverse blindly, I venture through this unholy maze
Trying to find some truth while in these unholy days
By now I realize my life and death have been over
come
I sit and wonder when the fuck eternity will be done
I can not stand this toucher not for one more day
Although my soul no longer exists, I hang my head and
pray

(Hook)

All hail Ungod
There are no secrets in here
All hail Ungod
There is no god that you fear
All hail Ungod
We live our life to die
All hail Ungod
Unholy mass suicide
All hail Ungod
I'd rather sell my soul
All hail Ungod
Than be in god's control
All hail Ungod
I live by his name
All hail Ungod
We all die in pain

(Verse 2:Kap)

Welcome to the family phantom of your democracy
Your god leaped up out of me sick inside of me follow
me
Now your walking through the valley of death
I can see your god, His lie, You sacrificed your life
Giving up your rights to fight
The fucking force you feed, The beast inside you bleed
Your tears turn to blood, Your brain washed, Diseased
But I can turn to the Ungods wickedness
Allot of form's get with this, Sacrilegious anarchist
Life is no longer about the testaments and holy shit
sacraments and faggots commandments I think where
banning this
Fuck all the preachers and holy fathers up on us
See the reverend in heaven but ain't no heaven inside
us
I think of death as a gift from the devil or Satan
I think of mass mutilation unholy nation where facing
I'm thinking fuck your god and come and join the mass
All hail Ungod, The bibles burning fast

(Hook)

All hail Ungod
There are no secrets in here
All hail Ungod
There is no god that you fear
All hail Ungod
We live our life to die
All hail Ungod
Unholy mass suicide
All hail Ungod
I'd rather sell my soul
All hail Ungod
Than be in god's control
All hail Ungod
I live by his name
All hail Ungod
We all die in pain

(Verse 3:Kap)

The powers behind us and even god can't divide us
I feel the need to relieve 1000 killer's beside us
Throw your fist's in the air for the Ungod
And let the world be known your having visions inside
your eyes
Of hate and wasted population case's
Religion's tasteless faceless and racist's
I caught the conflict like a monster mosh pit
I feel the hate, chemical warfare rockets
We fight for rights of guns murder and suicide
Than live our life Unholyness ??? Do or die

a life of pain remains numb from pain pills
Where forced to rape and represent the main kill
The thick of the social separate our society's
The sick insane and suicidal hypocrisy
I fight for mankind the sick the mastermind
All hail Ungod, The mass suicide

(Hook)
All hail Ungod
There are no secrets in here
All hail Ungod

All hail Ungod
We live our life to die
All hail Ungod
Unholy mass suicide
All hail Ungod

All hail Ungod

All hail Ungod
