Riddle me this n hear the sounds of the triple 6
When every other bitch
Can't get used to the wicked shit
The wickedness the wicked witch
Ain't from the east or west
She's from the h-e-double-l
Smell the burning flesh
What's up must come down
The angel hits the ground
What's down must come up
So don't fuck around
Blasphemy (blasphemy)
Needles and pins I sin another sin
Blood dripping from my chin
Thanks for this food amen
Burn a cross with a touch a my finger tip
And Russian roulette I put a gun to my fucking lip
And pull the trigger I hear a click son of a bitch
The wicked witch oh will she come to witness this
I'm gonna die oh me oh my
I wanna die blood drips from my eyes
The devil cries (ahhh)
The wickedness rules the ways
Wicked ways so get on your knees and pray
I wanna hear you say

"now I lay me down in shit..
(silent message Jesus Christ)..Can suck my dick
And if I die before I'm fake
I pray to hell my soul to take"

mentally fucked up
Controlled by evil thoughts
I sleep at night dreaming
Of running an evil cult
My hands are bloody
Sacrilegious and evolution
I'm walking the fiery death
Searching for revolution
I'm taking a bag of tricks
That turn into triple 6

Tattooed is a pentagram
Inscribed on my fucking dick
So turn a holy cross upside down
Take a look around
Without a sound you see
Demons crawling from the ground
Down 6 feet deep my grandma don't sleep
Every single sound that she hears
When the dark reaps
Psycho shit I sip off the witches brew
Searching for virgins
I'm killing bitches the witches crew
Wicked mentality
Got me seeing through Satan's eyes
So pray to the g-o-d you wanna remain alive
The wickedness seals your fate
Wicked ways so get on your knees and pray
I wanna hear you say..

"our father who ain't in heaven
Hell will be thy name
He soon will come we will be done
As hell becomes a new heaven
And on this day we'll soon be dead
And kill all the just that's against us
And lead us deep into temptation
And deliver us evil
For the kingdom, the power
My death will be yours
Now and forever..."

some people say that I pray all day
And fuck the kkk bitches killing my way
Wicked ways they say
I pray to the devil
My mentality's malicious banging heads to heavy metal
The psycho sick shit runs through my mind
Controls my mind
The yagger mister black wine
So suck my triple 6 dick and die
The carcass of a bitch
Is like lust and lies
I don't know why
I must seal my fate
Gun to my face and pull the trigger to the AK
Let it spray blood and guts
The devil grips my nuts
The dull razors cut through my wrist I'm fucked
And I don't wanna die
So look through my eyes see what's left of my life
I wanna go to heaven but there ain't no way

I still light a candle n continue to pray
You never hear me say...
Ahh

See you everyday on a TV screen..
You tell the same old lies my redemption leaves you
dead

On a crucifix I seen Jesus masturbate
A gun in my face
The end of my life I plead and contemplate
The spawn of hell
Rape the statue of the virgin Mary
I hide the souls I stole
In a mausoleum at forest lawn
Pray and possessed
You motherfuckers talking tongues
Your souls are molested
By the bibles psalms
The number 9, the 7th sign
Soon you'll find out in time
The answers to after death your death can only find
The scalpel that burns around your neck
As they implant the chip your souls in check
Mourn your soul as you fall deep in the flaming hole
Your just the first
In the whole world it's my the fucking goal
Pray for life
Before death now ya dead
I'm bout to hide the bodies of
Cut of heads
Pray to god pray for your salvation
Eternal life in hell
Read your bible it's in the revelations
Ahhh
Fucking my head made me insane
Things that you say
Just made me turn my own way
It's the only way to live

Don't pray
Pray!! pray
Pray for your soul
(pray you don't pray)
