Religious bitches must die, they prey to god in the sky.
The holy spirit and I clash like truth and your lies.
I cause the pain that you feel, You think your god is so
real.
But now you pray to survive. Religious bitches all die.

You think I give a flyin fuck about a dead nun
I put her corpse in the trunk and bump the funk
I pull her body out, Ten days in the heat.
Her rotting cunt smelling sweet like dead meat.
I wanna cut up that christians incisions
Mutilate religion new visions.
Fuck a dead bitch, fuck a dead nun.
Fuck the virgin ass mary, Give me head. What.
I got this motherfucker locked down.
I put my dick in her mouth, throw the holy bible to the
ground.
I burn it up now page by page.
Im smoking blunts now, major haze.
Im kinda fiending for the flavor of a baptist.
Fuck a rat bitch, christ and catholic.
Say goodbye to the god that you pray to
cuz you'll be yellin my name when I rape you.

Religious bitches must die, they prey to god in the sky.
The holy spirit and I clash like truth and your lies.
I cause the pain that you feel, You think your god is so
real.
But now you pray to survive. Religious bitches all die.

I hear a knock at the door, who the fuck it for?
A little baptist, handing out religious forms.
Talking bout the holy message and the word of god.
Crucifix running out this bitch is looking hot.
So I invited her in to discuss my sins
I told her about the murder and rape I commit again.
I told her about the bloody gut and mutilated sluts.
I told her how I wanted to fuck her religious cunt.
Shes so pure, Virgin white dress, unblessed
I took a look at her brests, rape in progress.
I bash her mother fucking head against the kitchen

floor

I grab the bread knife and started cutting her up slow.
The first thing to go, her fucking crucifix.
I rapped it around my fucking dick and cut off her tits.
And then I cut off my dick and shoved it in her mouth.
Religious bitches suck dick. Say ungod now.

Religious bitches must die, they prey to god in the sky.
The holy spirit and I clash like truth and your lies.
I cause the pain that you feel, You think your god is so
real.
But now you pray to survive. Religious bitches all die.

Gothic Killa. Im killin nuns for fun.
I pack a gun and a knife for some nun love.
They say im sick deranged for you to fuck with
I suck the puss out the virgin marys butt zits.
Sick like this yes. Fuck the holy bible.
Fuck living a holy life, i think im suicidal.
My mind is trippin, So im thinking about this holy bitch.
I look at the bottom of my fifth thinking holy shit.
Listen to this, the triple six awakens.
The beast of satan, sex, masturbation.
My thoughts of dead nuns, my sister showed me.
Your lies devide religion lost, unholy.
Feel your love, and when I taste your blood
and when i drink your cunt you can feel love.
The second comin of christ, tell me where is jesus.
Like the pile feces, your still diseases.

Religious bitches must die, they prey to god in the sky.
The holy spirit and I clash like truth and your lies.
I cause the pain that you feel, You think your god is so
real.
But now you pray to survive. Religious bitches all die.
