(Verse 1)

Welcome to the world of the damned
I can see you want to cross with the spikes in your hand
And the blood pouring out of your dirty rotten flesh
You can try to take a breath but your already dead,
Meet death
Mother fuck dead christen bitch on a stick
I burn it like this take a piss on a Baptist
And I don't like nuns, But I like guns and I kill for fun,
Fuck you
The professes once told me of a second coming,
So here I come motherfucker better keep running
100 miles we can stop at the liquor store
So I can get fucked up and kill some whores
I'm not god but I'm more like the anti Christ
Or am I anti right Or am I anti life
I can't think cause my mind is brainwashed
Kill gods people for the cause of ungod

(Hook)

Have I lost my mind in my mind
Am I god, Am I dead, Am I live, Am I gone
Cause I can't see the thoughts in my mind and I blind
You will find that sometimes I think I'm ungod
Have I lost my mind seven signs of another man dying
Been tide to the vines of the pods of the minds,
In the thoughts, In the veins, in the hearts

(Verse 2)

I'm ungod yes, Am I god no
Am I the one who turned the virgin Mary to a hoe
Am I the one who broke commandments while I was
growing up
Am I the one who drank some liquor till I'm throwing up
And now I'll puke on a bitch like the dirty rat bitch
And I'll piss on her tits while her throats slit
And I could give a fuck less if she's 89
Cause even grandma's like a fuck before they die
And now you might say I'm sick
Sick of the bullshit yes, Fuck the bless
I don't give a fuck about no one, Trust no one

Fuck that bitch and her basted son
Coming from the mother fucking good life
Fuck that hood life, And Jesus Christ
And don't think I'm satanic cause I'm really not
I just do it for the silence of the ungod

(Hook)

Have I lost my mind in my mind
Am I god, Am I dead, Am I live, Am I gone
Cause I can't see the thoughts in my mind and I blind
You will find that sometimes I think I'm ungod
Have I lost my mind seven signs of another man dying
Been tide to the vines of the pods of the minds,
In the thoughts, In the veins, in the hearts

(Verse 3)

I did what the voice told me
They told me to kill every little bitch that was holy
So I went on a killing spree and I was tripping with my
sawed off
Kill everyone in the church and burn the cross
Than I went to the rectory, Heroin inject in me
Raped me a nun she wanted sex with me
I couldn't stop this voices kept saying kill
And so I killed another priest and let the blood spill
My mind is fucked up I think I nearly lost my mind
I can't control my mind, Somebody help me
Am I enslaved, The voices they control me
The devil owns me, I'm unholy
Ungod visions of a dead body bitch
Better hold your crucifix rosaries and candle sticks
Cause I'm coming mother fucker Satan's coming
The ungod's coming, I'm here

(Hook)

Have I lost my mind in my mind
Am I god, Am I dead, Am I live, Am I gone
Cause I can't see the thoughts in my mind and I blind
You will find that sometimes I think I'm ungod
Have I lost my mind seven signs of another man dying
Been tide to the vines of the pods of the minds,
In the thoughts, In the veins, in the hearts
