### Intro:

Yeah top of new york  
milly....clips yeah

### Verse 1:

I was chilling in the crib by myself puffin low  
So I called up all my nikkas made a plan to pick them  
up  
And go somewhere and play  
Cause I aint trynna be around the way  
So I jumped up in the truck  
Made my way to pick them up  
That's when I seen her on the corner  
With her peoples acting up  
I had to park the range  
Cause I trynna see her get away

### Bridge:

I said Hold up wait a minute  
Shorty can I get your name (Shorty can I get your  
name)  
Hold up wait a minute  
Love the way u do it okay (baby I)  
I love the way that you walk (o0o I love)  
And I love the way that you talk (o0o I love)  
And I love the way that you (I know you herd this  
before)  
Nobody else but you (But I think I love ya)

### Chorus:

And O baby I  
Would walk threw fire for one night  
If only I can spend the night  
Baby please don't just turn away  
Before you hear one thing I got to say

### Verse 2:

Shorty tell me is it wrong if a nikka want to throw links  
on ya  
Summer cop coupe with some dope minks on ya  
Canary yellow stones couple rings its official  
I aint playin, I'm just naming some things I can get you

I change when I'm with you  
All I want to do lay up  
And pray the crib rolling round the sheets with ur legs  
up  
The games up  
Cause now I'm thinking like commitment  
I'm feeling like the tropics what I'll do for a visit  
I'm cool for a minute  
Got a stroke back and a nice breeze  
You probably thinking I'm all about sex the way it might  
seem  
But you're my white dream  
I see us at the alter  
If you got another plan ma then ma I'll get that off ya  
Look what I bought ya  
Mami you can keep that  
You can find me in the B's where the G's at  
Give me some feed backs  
I'll leave for the summer  
we can start now all I need is your number

Chorus:

And O baby I  
Would walk threw fire for one night  
If only I can spend the night  
Baby please don't just turn away  
Before you hear one thing I got to say

Verse 3:

Excuse me can I talk with ya  
Can I park up the range and just walk with ya  
Can I get your name I'm feeling your style  
You see your lips and your smile got me thinkin about a  
night with ya  
It'll be real sweet hot sex silk sheets  
I'm like T.O with the pipe i'll go in real deep  
And I fronting I'm just vinegar with the inches  
Maneuvers so smooth I'm thinking about your entrance  
See are you with it you know your boy moving dollars  
splurs  
You with cucci products vacate the \_\_\_\_  
7 days stay up in Spain up in the new Amanas  
So what ever you want girl yeah you can holler  
Cause you know I aint stingy with the digits  
If you thinking you can get it  
All you giving its your digits  
If you give me just a minute to slow up  
We can make it happen girlfriend just hold up

Chorus (2x):

And O baby I

Would walk threw fire for one night  
If only I can spend the night  
Baby please don't just turn away  
Before you hear one thing I got to say
