Ha Ha Ha

Do you see menio

you remember me the guy from the back of the class  
that used to where the glasses the one you  
used to laugh at look at me now brother do u like fruit  
well I'm chewin your girls  
how do you like them apples asshole

[Chorus: Tony Sunshine]

IM laughing at you

IM laughing at you now you told me i was ugly

i was scared to crack a smile

Pun: Ha Ha Ha Ha Ha

IM Laughing at you now

Pun Ha Ha Ha Ha Ha

Im laughing at you

[Pun]

600 Benz 20 inch rims house on the hill hittin' mad skin

Ha Ha Ha Ha Ha Ha Ha Ha Ha

It was all a scheme i used to load the teck with the  
magazine

so i was mean but i still had a scheme

17 years young everything seemed fun

still considered a veteran cause i feared none

Pun's from the street where there aint no rules

but carried heat cause he ain't no fool

Aint no wrong for dollars in negative digits

so debted followers and got rid of the quitters

that never forget us cause we've been down since the

Genesis 200 horse power to 400 Pegasus

the messages don't sleep till its over

next thing you know shorty seven feet

tippin' over i'm still in the water drownin'

Knights and murder till the immortal terror squad

threw me a life preserver now im ice forever

stomach bustin' out the white carrera

life is better now niggas wanna rhyme together

ay que sera! what can i do but take you to strive

ay que hago! i hope the streets dont take me alive  
you wasted your life and refused the struggle while  
i aim for the sky pay dues and bubbles I WIN!

[Chorus]

[Pun]

Now its not funny cause im hot and got a pot of money  
alot of hunnies around (Don't stop do the brown for me)  
my every wish is her command call her bitch she  
understands

i reminisce how she used to dis me and my man  
check part of the plan she told my son i wasn't the man  
i aint gonna to stop till i got a heart in my hand  
I can silence the lamb but couldn't silence her cause  
she was as wild as a man with a bottle of liquor  
i'm not going to hit her i'm gonna debt her tonight  
double platinum now shes one in the tribe well in the  
ride now

well in a fly gettin' high now no more whiteout send the  
cubans

to provide now it's my world i demand my respect  
give me your girl or get slapped in your neck  
ain't nothin' change im still humble and modest  
and im always proud to admit i came straight from the  
projects  
hardy har har har

[Tony Sunshine]
