I couldn't keep it to myself  
I couldn't keep it to myself  
I couldn't keep it to myself  
I couldn't keep it to myself

When I met you, I couldn't believe my eyes  
Now I'm with you, life is full of surprise  
Never thought we would be holding hands  
Tell me something, was this part of your plans

I can't believe how good it felt  
I tried to keep it to myself  
I know I said I wouldn't tell my friends

Had to tell somebody  
I couldn't keep it to myself  
I had to tell somebody  
I couldn't keep it to myself

Had to tell somebody  
I couldn't keep it to myself  
I had to tell somebody  
I couldn't keep it to myself

When we laid down, it made sex so nice  
I knew we would be doing this all night  
I never ever felt so personal  
The way you ride me, keeps me talking more

I can't believe how good it felt  
I tried to keep it to myself  
I know I said I wouldn't tell my friends

I couldn't keep it to myself  
Had to tell somebody  
I couldn't keep it to myself

And I told everybody  
I couldn't keep it to myself  
I had to tell somebody  
I couldn't keep it to myself

When I started bumping, you started booming  
Bumping, booming, bumping, booming  
When I started bumping, you started booming  
Bumping, booming, bumping, booming

When I started bumping, you started booming  
Bumping, booming, bumping, booming  
When I started bumping, you started booming  
Bumping, booming, bumping, booming

Can't believe how good it felt  
I tried to keep it to myself  
I know I said I wouldn't tell my friends

I couldn't keep it to myself  
Had to tell somebody  
I couldn't keep it to myself

I had to tell somebody  
I couldn't keep it to myself  
And I told everybody  
I couldn't keep it to myself

I told everyone about us, girl  
I couldn't keep it to myself  
I told everybody in the world  
I couldn't keep it to myself

I told my homeboys down the street  
I couldn't keep it to myself  
I'd tell everybody when I meet  
I couldn't keep it to myself

The way you ride me, caress me so tight  
I couldn't keep it to myself  
Only you can do it right  
I couldn't keep it to myself

I couldn't keep it to myself  
I couldn't keep it to myself  
I couldn't keep it to myself
