I haven't seen your face in a year  
I can't wait till I get there  
Just to kiss and squeeze and hug  
Girl you know the rest 'cause they tell me

It never rains in southern California  
It never rains in southern California

Maybe I'll take the flight out tonight  
And you can pick me up about 8  
I don't know what airline girl  
But I know it won't be late 'cause they tell me

It never rains in southern California  
It never rains in southern California

Now I can't sleep at night  
Without your 8 x 10 by my side  
That day will come  
For us to be together  
I'm not worried 'bout a thing  
Not even stormy weather...

Oh it may be cold on the east coast  
But on the other side of town it never rains...

We have so much to talk about  
A lot a catchin' up to do  
I'll bring the diamond girl  
Because I'm so into you  
Cause they tell me...

It never rains in southern California  
It never rains in southern California

Now since I'll be here at your place  
Let's take a weeks trip for two  
We don't have to go to far  
Just as long as I'm with you  
'Cause they tell me...

It never rains in southern California  
It never rains in southern California

Can we just be alone  
Without those other strangers  
Calling your phone  
Now I don't want to be  
That selfish kind of guy  
But tonight let me take you  
On a natural high

Just me and you alone

Now it may be cold on the east coast  
But on the other side of town it never rains...

Now it may be cold on the east coast  
But on the other side of town it never rains...

It never rains in southern California  
It never rains in southern California  
It never rains in southern California  
It never rains in southern California

Now it may be cold on the east coast  
But on the other side of town it never rains...

Now it may be cold on the east coast  
But on the other side of town it never rains...

It never rains in southern California  
It never rains in southern California  
It never rains in southern California
