I was sitting at the house on a late night
Working hella hard trying to make my tape tight
Music hella loud and the TV was on
Bumping so strong that I couldn't hear the phone
I looked at the tube and the shit was kinda wild
A bitch getting served straight doggy style
I hit the "off" button on the drum machine
Sat down on the bed and I peeped the scene
And the ho getting fucked, oh man she was so fine
After hours, 1 o'clock on Showtime
But what I saw, it made me wanna ball
I grabbed the telephone, it's time to make a few calls
Who can I get to be a ho for me tonight?
I think I'll call Tish cause her shit's hella tight
Hit it on the nose cause the bitch was on horny
I hung up the phone, put my tongue on the fork
So I can be ready for some body and some soap
The 40-oh of Mickey put my dickey on pole
Now I'm hella anxious, waiting for the cock
So I can keep her yelling "Ant Banks don't stop!"
Ha ha, I can't wait to lay the pipe now
But I hope she comes around before my high goes
down
Oh knock knock knock on the door, what do ya know
I opened up, sure enough, I'm in luck, it's my late night
fuck

(Don't you wanna do me?) Yeah, give it up
(Ooooh, do it from the back) C'mon, c'mon
(Don't you wanna do me?) Give me some of that
coochie coochie

I said "Come on in" and "Oh hi, how ya doing?"
Conversation was fake, cause I was thinking bout
screwing
She gave me a hug and a real wet kiss
Zip goes the zipper and I whipped out my dick
I know you're wondering, what did she think?
She got on her knees and started sucking my beef link
And believe me, the head was kinda right, bro
I got served like a Cutlass in a side show
And the nut came gushing like Niagra falls

She took it out and I nudded in her eyeball
Now what's next, is it time to get some dick?
She said she wanted to get licked
Eat the pussy? That ain't fly, no
I'm not a lick 'em low, Pooh-Man lied, ho
All I wanna do is knock some boots
So let me see you in your birthday suit
Every bone in the cock I was preparing to break
Cause the bitch had a fucking Ms. America shape
Now it's time for the sticking, watch the bitch get stuck
By the big-dick gangsta Banksta and the late-night fuck

(Don't you wanna do me?) Yeah, give it up
(Ooooh, do it from the back) C'mon, c'mon
(Don't you wanna do me?) Give me some of that
coochie coochie

I was chopping up the cock just like a Ginsu
She opened up her legs wide enough to ride my Benz
through
That's about the time I stuck it in her socket
She shouted "Pop my coochie!" Best believe that I
popped it
And I kept on stroking
But I couldn't feel the pussy with the old-school Trojan
I had to wear it last week, I heard she burnt Pooh
I slapped her ass cheeks til they turned blue
I had her hanging off the bed with her hands on the
floor
Just like a pro, hitting nothing but pussy hole
She started wiggling, I couldn't keep the bitch still
Just like En Vogue, I'm giving her something she can
feel
I was sweating and dripping cause we was working out
She started moaning cause the nut came squirting out
Huh, now it's time for me to bust mine
I'm a have to end it and shit, I'm finna finish up this
fuck rhyme
Now I think I had enough
Oh shit, my late night fuck! (echos)
