ONETWOTHREEFOUR!

To celebrate this last day  
we're gonna kick it off with a fat reception  
bongs, piss, drugs, chicks  
and if you're here to mourn you can fuck off out the  
door  
Forget about who you are and let it all out  
let this party take control  
raise your fist when you realise  
realise you're about to die

most things, they come around and around  
fuck you and your friends  
they smack around and around most things, they  
most things, they

now can i have your attention  
look at the louie loue and little peggy sue here  
come on guys get erected, girls get naked  
Forget about who you are and let it all out  
let this party take control  
raise your fist when you realise  
realise you're about to die

most things, they come around and around  
fuck you and your friends  
they smack around and around most things, they  
most things, they

rocks turn to dirt as the valley grows high  
do you think he should fly, or is he supposed to die?  
show me a sign!  
rocks turn to dirt as the valley grows high  
do you think he should fly, or is he supposed to die?  
show me a sign!
