Check your life your freestyler, let it go
You've got to know, you've gotta
You've got to know
Check your life your freestyler, let it go

I went to you and I pushed you down
I stole your crown you can't do nothing, I said to you
I went to you and I pushed you down
I stole your crown you can't doâ€¦
DO NOTHING
DO NOTHING, YEAH!

It's your own opposition, fire!
We are accumulated existence,
Are we a mass or not?

I dreamed that I'm a liar,
About the pain in my home
I get nothing out of your eyes just to get back!

You only movements are falling stones
Moving back and forth
To a place to end that broken heart
Is it your own emotions that lie around that circled bed?
It's when you sad you didn't care you BLED

IT'S NOTHING!

Choose to eat shit and that's your choice!
And then you just fucked off
