That guy in the picture is you  
Confused as you're reading the headstone  
trying to figure out whose funeral you're at  
it's neverending piece, neverending anger  
you stop before i mess you up  
well i'm fucked without direction, no  
yes, there's something else  
i am yet a ten minute man

follow me down unto this place  
is it enough to leave a note to remind me?

now as we look unto this world  
with my mind i am frightened  
and as we go unto this world  
can my mind feel this pain?  
it's what he said unto himself  
with my mind i am frightened  
and you know you shouldn't shit yourself  
cause my eyes, i am frightened  
no...

if we all would rise to listen up and start realising  
so much complication, nothing seems to work  
it's neverending piece, neverending anger  
you stop before i mess you up  
well i'm fucked without direction, no  
yes, there's something else  
i am yet a ten minute man

follow me down unto this place  
is it enough to leave a note to remind me?

now as we look unto this world  
with my mind i am frightened  
and as we go unto this world  
can my mind feel this pain?  
it's what he said unto himself  
with my mind i am frightened  
and you know you shouldn't shit yourself  
cause my eyes, i am frightened

no...

it was a few seconds of the day  
every man becomes a genius  
moments of clarity  
and everythnig you'd cried for  
the clouds part, the planets move into a neat little line  
everything's obvious  
life's just a game  
it's a cheap parlour of tricks  
i want to forgive, but i can't remember how to forget

life is a cheap parlour of tricks  
is it enough to leave a note to remind me?

now as we look unto this world  
with my mind i am frightened  
and as we go unto this world  
can my mind feel this pain?  
it's what he said unto himself  
with my mind i am frightened  
and you know you shouldn't shit yourself  
cause my eyes, i am frightened  
no...
