Come with me inside my fucking paranoia  
you seek the words, they're the words of my misery  
something rational is hapenning to me  
you better fuck me once again  
that's when she said 'come on big boy, go down on me  
baby, baby'  
i'm fucking limited, pulling all my strings  
that's why i procrastinated  
my body scored on this night of deceit  
it think it's more sense for you and me to mate

write me right down like that little whore that you are  
write me down

fear and loathing faces  
the sun is too bright  
i think i'll stay for a while

get off the bed and then you get on the bed  
get off the bed to get on the bed, make some doe  
get off the bed and then you get on the bed  
get off the bed to get on the bed, make some doe  
get off the bed and then you get on the bed  
get off the bed to get on the bed, make some doe  
get off the bed to get off your head...

fear and loathing faces  
the sun is too bright  
i think i'll stay for a little while more  
have you heard?
