And for a moment
I stopped breathing
While these lips
They keep screaming
For another taste of you
And I can't help writing
That stupid love song
That I've been fighting

I'll never want another one

You know I'm into you
So into you
I'm sure that's nothing new
No it's nothing new
And I just might
Stay the night
If you ask me to
I say the words before you do
I'm so into you

A Sudden movement
Perfect timing
While the moon
Is softly shining
Like a metaphor for you
And the tide you're bringing
And for the first time
I stop thinking

You'll always be my only one
