these skylines scar this empty horizon.
it's official. motivation's dead.
let's break these arms tonight.
let's set them straight.
let's break these bones tonight and when we mend the
fractures.
stronger repair. senses return.
hold on. i can let you go.
these stitches are breaking.
so, let's embrace this rusted relationship, and dull our
senses.
buried, but passive.
let's decompose for the population.
let's decompose. buried. passive. decomposing.
senses dulled.
