Girl its so hard to say goodbye
but you're gonna be lonely,
lonely without me

When i leave, i will think, about her much
I wanna be with you,
But you never believe me
Now who can i trust with my heart
I admit the day i fell for you, you know that you had me
caught up
But the truth is i cant keep lying to myself
So tell me

Chorus:

Tell me what i'm supposed to do, do
When i was so caught up in loving you
And now its so hard to say goodbye
I dont wanna be lonely
Cause when i look back you got just what you deserve
(you deserve)
i never tought i'd be the one thats getting burned
Girl its so hard to say goodbye
but you're gonna be lonely
without me

If i stay, we can't be friends
You wanted more than i could give you but you never
cared
All the times that i was there for you whenever you
needed me
Now the lies are goodbyes
and baby there's no need to cry
so you can whipe all your tears away without you i'm
lonely, Tell me
[Without Me Lyrics On]
