[feat. Mobb Deep]

They keep begging for a body bag  
Deep cut my shit put them in a bag  
Lay 'em out leave them toe tagged  
They keep begging for a body bag

My gun got them on a...  
It looks so pretty taking out competition  
It even got a flashlight on the barrel  
I click it on and I wave it at you  
You think it's god when you see the light  
But you won't see god homie you gonna die tonight  
Marked for death let the bullets be the written symbol  
I point them all and rock well right out the window  
When it come to beef I squeeze on targets  
My hands all bloody like rocky in a meat market  
I squeeze harder than a python, with that 357 called  
python  
Niggers hate my but my skin is thick  
Point them out and I... hit him in his bricks  
Now's all peace pouring out a little liquor  
He died forced up, from a trigger finger

They keep begging for a body bag  
Deep cock my shit put them in a bag  
Lay 'em out leave them toe tagged  
They keep begging for a body bag  
They keep begging for a body bag  
Deep cut my shit put them in a bag  
Lay 'em out leave them toe tagged  
They keep begging for a body bag

Yeah, you ain't got a bag... I got you  
Hold still show you what the glock do  
... a nigger catch a holy ghost  
Hole in the spine leave them with a scoliosis  
... before I let you hold one  
Lay for right where your... from  
Fuck you out of here, you playing in the street  
My niggers up and ready are you coughing up meat

I ain't lost enough sleep for drama to wear me out  
Your pussy everything that your mouth is like...  
No one is prouder whenever they see me out  
Soured up, straight blown through a 3...  
My finger hit you like money coming  
Body bags want me nothing keep the guns bumping  
Talk cheap but the slugs here cheaper  
Know you want a body bag, but here's the grand reaper

They keep begging for a body bag  
Deep cut my shit put them in a bag  
Lay 'em out leave them toe tagged  
They keep begging for a body bag  
They keep begging for a body bag  
Deep cut my shit put them in a bag  
Lay 'em out leave them toe tagged  
They keep begging for a body bag

Fuck that I gave a lot of passion  
Let a lot of niggers live show a lot of compassion  
I never took advantage of you weaklings  
I could of green light the universe... beat down...  
And be a massacre if I give the word  
So I only serve those who truly deserve  
This level of punishment is not for beginners  
You acting like you can handle it  
I'm a give it, I'm handing out life support systems  
Shit bags and... for free, come and get some  
When you see me in the club  
Cause I ain't come for bitches, I come for blood  
It's the return of the mac and revenge of the thug  
Watch the attitude switch up and extract the bitch up  
But now they in the present of some legendary niggers  
Bumy ass nigger got his dummy ass hit up

They keep begging for a body bag  
Deep cut my shit put them in a bag  
Lay 'em out leave them toe tagged  
They keep begging for a body bag  
They keep begging for a body bag  
Deep cut my shit put them in a bag  
Lay 'em out leave them toe tagged  
They keep begging for a body bag.
