I put my pen to the pad and complete the objective
And tell me life through a hood perspective
I hit a nigga close range calm and collective
My lex park it self I throw on my vest quick
I live like a crime figure, my money loong
I got ya baby moms in the aspen, skiing in a thong
You niggas dead wrong, your diamonds dead wrong
My diamonds like conflict you reach you lose a arm
My brain blown off that brain dead homess
That red light you smoking on that home grown
I'm in my own zone 44 all chrome
1 shot I'll have you leaking out chromozones
Big niggas wanna shot the 5
Lil niggas wanna shot 4 5's
So whoo kids about the greatest alive
Man I'm tryna just stay alive
I got my anti sagging, 44 magnum
New bm got your bm bragging
