"Miserable"

Narrowminded
Drawing Blanks
Looking through the cold fainted light
No way to see
No way to feel,
The pain inside herself concealed
Plain and simple as strong as she feels
No reason
No reason
Believe in thee,
Just believe in thee.
Moving forward
Falling back
All alone silence brings him back
You're right
He's wrong
Turn around and hope that if nothing else you
Belong with thee
just believe in thee
Gone the right way
Lost the wrong way
temped by the turf you have found
Designate yourself a life
bettered until he's right
