[\$hort]

Short there baby what's that axe  
I never saw a girl that could finish that  
I said you look so high and your hair so long  
When I see you baby I'm gonna sing this song

Crawl [scratch] I gotta get that funk  
Female funk

I tell you about a freak that I met  
Short got heat when the funk got wet  
She's the one I won't forget  
Got to get that funk like it ain't no sweat  
Like a seven eleven on a non stop street  
The first young tender was a true the freak  
Cuz the funk won't let quit they don't tell me shit

Crawl [scratch] I gotta get that funk  
Female funk

The second gender that I had  
Talk about Friday that girl was bad  
But young tender and sir too short  
Gotta get that funk everyday at fo  
Cuz a brother like me pay to in out  
Funk that jump bitch there's just no way out  
Once was yours but now she's mine  
But now I get that funk I sing this rhyme

Crawl [scratch] I gotta get that funk  
Female funk

The dirt young tender that I put  
Couldn't understand that torched the but  
Big time rapper that's what I am  
But in that funk I'm superman  
The dirt young tender she's the one  
After two whole dates she had me sprung  
Working that funk like I know I should  
This and sour when I know that funk is good

Crawl [scratch] I gotta get that funk  
Female funk

The next young tender was the fourth  
So much love for sir too short  
The fourth young tender that I'll regret  
The girl got scared when the funk got wet  
Without that funk what's to play  
Sleep, and eat, and work all day  
Give me that funk and I might just shout  
Sir too short just turned you out

Crawl [scratch] I gotta get that funk  
Female funk

Too s.h.o.r.t. female funk is all I see  
Baby and short all night long  
Give me that funk and sing that song

Crawl [scratch] I gotta get that funk  
Female funk

Hey young female there female funk is what I said  
Funk, funk, give me some more  
You get a lot of funk when your name too short  
Give me that funk give me a lot  
That funk won't stop give me that funk don't be  
Everywhere I go they sing this song

Crawl [scratch] I gotta get that funk  
Female funk

I gotta get more gotta get mail  
Told my hoe by the fifth young tail  
Call me up on the telephone  
And said sir too short I'm all alone  
I said there's no need to say anymore  
Getting real funky is up to too short  
The two emcee is who I be  
Working that funk to the video

Crawl [scratch] I gotta get that funk  
Female funk

Thirty eight twenty four thrity seven  
All about tennies all extra thick  
Work that funk if you dare  
Cuz all my young tenders got funk to spare  
Watch your step you just might slip  
Sewed up too short on a tender tip  
Got to get that funk with that G

When it get's that high just send to me

Funk [scratch] gotta get that funk  
Female funk

The next young tender down the line  
Is just a fan who loves the rhymes  
She saw me rolling so so hot  
Recognized pain in the start  
There's no time so the story goes  
I rolled that freak like a two hoe  
Cuz I'm a vet not a punk  
So let too short just rock that funk

Funk [scratch] gotta get that funk  
Female funk

Female funk seven day all two times  
Smooth the ocean around the clock  
Saw too short just watch that cock

Funk [scratch] gotta get that funk  
Female funk
