last year nearly all my friends got married  
this year those remaining followed suit  
well, Ive learned to feign rapture  
over what the photos capture  
while secretly envying the  
wedding present loot

and though Ive had offers to tie the knot  
and trot down the aisle to the altar  
I must have some block  
for when I look at that knot  
you know it seems to turn into a halter

though I sometimes let myself fantasize  
about honeymoons under Parisian skies  
and I once went so far  
as to think about buying a dress  
but when it comes to the final reckoning  
and that little love nest is beckoning  
I bolt like a runaway pony in distress  
I guess Im just a girl who cant say yes

and these days divorce and marriage  
go together like a horse and carriage  
though you were sure it was true love at the start  
but whats the use of saying I do  
if two years later youre through  
even if you get to keep the Cuisinart

and though I dont believe any more that Mr. Right  
is waiting to claim me some starry night  
I cant seem to make myself settle for anyone less  
I guess, Im just a girl who cant say yes  
ah...no  
like Siamese twins  
like a pair of shoes  
like Noahs menagerie  
everyone comes in twos these days but me  
I guess, Im a just a girl who cant say  
Im a just a girl who cant say  
Im a just a girl who cant say ... yes

ah...no
